GÖZDE SERT

gsert@ncsu.edu ◇ Website ◇ LinkedIn

EDUCATION

Postdoctoral Researcher, North Carolina State University — Present
Advisors: Brian Reich & Shu Yang

Ph.D. Statistics, Texas A&M University — 2021-2026
Advisors: Anirban Bhattacharya & Abhishek Chakrabortty

M.A. Mathematics; Minor: Statistics, Pennsylvania State University — 2018 - 2021
Advisor: Donald Richards

RESEARCH INTERESTS

Bayesian nonparametric/semiparametric inference; Spatial statistics; Spatial causal inference; Bayesian Computational Statistics; Semi-supervised learning; Missing data theory; Transfer learning; High-dimensional inference.

RESEARCH PAPERS

Gözde Sert and Brian J. Reich and Shu Yang. Double simulation-based Bayesian inference for large and dependent data. *In progress*, 2026+

Gözde Sert and Shu Yang and Brian J. Reich. Exponentially tilted double robust Bayesian causal inference. *In progress*, 2026+

Gözde Sert, Abhishek Chakrabortty, and Anirban Bhattacharya. A unified framework for bayesian debiased machine learning: Applications in high-dimensional and semiparametric inference. *In progress*, 2026+

Gözde Sert, Abhishek Chakrabortty, and Anirban Bhattacharya. Bayesian semiparametric causal inference: Targeted doubly robust estimation of treatment effects. *Submitted*, 2026+

Gözde Sert, Abhishek Chakrabortty, and Anirban Bhattacharya. Bayesian semi-supervised inference via a debiased modeling approach. *Econometrics and Statistics*, 2025

Gözde Sert and Sergio Zamora. On unfoldings of stretched polyhedra. *arXiv preprint arXiv:1803.09828*, 2018

HONORS AND AWARDS

Winner of IMS **Hannan** Student Travel Award — 2026
Honorable Mention in ASA Section on SLDS Student Paper Award — 2026
3rd Place, Poster Competition, 14th International Conference on BNP — 2025
Finalist of the **IISA** Student Paper Competition in Probability and Theory of Statistics and Data Science — 2025
Winner of IMS **ICSDS** Student Travel Award — 2024
Winner of ASA Section on **SBSS** Student Paper Award — 2024
Texas A&M Statistics Ruth J. and Howard F. Newton Memorial Graduate Student Teaching Award — 2022

RECENT INVITED TALKS

The invited seminar talk of the Office of Biostatistics Research at NHLBI — November 2026
Title: Bayesian Semiparametric Causal Inference: Targeted Doubly Robust Estimation of Treatment Effects.

The International Conference on Statistical Distributions and Applications, Huntington, WV — October 2026
Title: Bayesian Semiparametric Causal Inference: Targeted Doubly Robust Estimation of Treatment Effects.

The Joint Statistical Meetings (JSM), Boston, MA. — August 2026
Title: Bayesian Semiparametric Causal Inference: Targeted Doubly Robust Estimation of Treatment Effects.

Best of Statistical Science (BOSS) Workshop, College Station, TX — April 2026
Title: Bayesian Semiparametric Causal Inference: Targeted Doubly Robust Estimation of Treatment Effects.
